

# FY 13 Additional Projects

Project	Type	IT Owner
1. Compass Cut Scores/WritePlacer	Research	Application Administration
2. IT Availability	Implementation	Application Development
3. School and Community Partnerships Application	Implementation	Application Administration/Development
4. Colleague Patches (Feb/Mar)	Implementation	Application Administration
5. TEAS	Implementation	Application Administration
6. UI Web 4.4 Deployment	Implementation	Application Administration
7. Veterans Community Portal - Phase I	Implementation	Application Administration
8. Course Schedule Modification - Sort	Implementation	Application Development
9. Faculty Payload - Automated Stipend Upload	Implementation	Application Administration
10. ELMS/DreamSpark (SSO Integration)	Implementation	Application Administration
11. National Student Clearinghouse (SSO Integration) - Enrollment Verification	Implementation	Application Administration
12. Automation for Tech Prep Scholarship	Research	Application Administration
13. Duplicate Person Record	Research	Application Administration
14. FormPort v6 Upgrade	Research	Application Administration
15. Angel Career Coach/CDDQ Assessment	Implementation	Application Administration/Development
16. RMI Bridge Re-Architect	Research	Application Administration/Development
17. Develop FMS Operations and Telecom Procedures	Implementation	Telecommunications
18. Replacment of First 50 Crestron Processors	Implementation	Telecommunications
19. Access Control Phas IV	Implementation	Telecommunications
20. Managed Printing	Research	Network Operations Center
21. Quest Recovery Manager Upgrade - To Support Exchange 2010 SP2	Implementation	Network Operations Center
22. IP Addressing for DR Project	Implementation	Telecommunications
23. Symantec Netbackup 7.5	Research	Network Operations Center
24. Diskeeper Velocity	Research	Network Operations Center
25. Transitioning PC Inventory Database	Implementation	Network Operations Center
26. Nextel Upgrade	Implementation	Telecommunications
27. Copier Management - IKON Contract Updates	Implementation	Network Operations Center
28. Openview Agent 11 Deployment	Implementation	Network Operations Center
29. Ricoh @Remote Implementation	Implementation	Network Operations Center
30. Courtroom in Building 19	Implementation	Telecommunications
31. Enterasys Console setup for network monitoring and forwarding to Openview	Implementation	Network Operations Center
32. JAMs Software Implementation	Implementation	Network Operations Center
33. F5 Firmware Updates	Implementation	Telecommunications
34. Office 2010 Rollout	Implementation	Application Delivery
35. Scripted Server Installation	Implementation	Application Delivery
36. Thin Client Evaluation	Research	Application Delivery
37. VoIP Server Upgrades	Implementation	Server-Based Computing
38. UNIX Secure Access	Implementation	Server-Based Computing
39. Sudo Enhancements	Implementation	Server-Based Computing
40. Amicus Upgrade	Implementation	Server-Based Computing
41. Redundant SQL Server for Angel	Implementation	Server-Based Computing
42. TutorTrac Internet Availability	Implementation	Server-Based Computing
43. MAC Server	Implementation	Server-Based Computing
44. MidRack Switches	Implementation	Server-Based Computing
45. Evaluate Server 2012	Implementation	Server-Based Computing
46. SAS Server Upgrade	Implementation	Server-Based Computing
47. CastNet Upgrade	Implementation	Server-Based Computing
48. Kong Upgrade	Implementation	Server-Based Computing
49. Ajax Replacement Research	Research	Server-Based Computing
50. Data Archival Product Evaluation	Research	Server-Based Computing
51. PC Assignment Process	Implementation	End-User Computing
52. Network Closet Wiring Standards	Implementation	End-User Computing
53. Image Process Documentation	Implementation	End-User Computing
54. Cloud Email Evaluation	Research	IT Systems
